## The New York Racket

State Insurance Block, 333 Com'l St.

Will save you 10 to 25 per cent. on staple goods, such as boots and shoes of all kinds, for ladies', gents' and children's storm rubbers and sandals; fur, wool and crush hats, (these are marked very low, quality considered.) Underwear of all kinds. White shirts, negligee and work shirts; pants, overalls, jackets, ribbons, laces, embroideries. Linen and Turkey red damask, Linen tablecloths, towels, table oilcloths, lace curtains, tablecloths, pencils and notions of all kinds.

## WHY CAN SO MUCH BE SAVED?

Because all goods are bought for cash from cash houses, and all marked at close profits for cash without calculating for losses from bad accounts, giving the customer all the advantage of the per centage saved, you can plainly see why we can sell goods of good quality at low prices.

COME AND SEE.

## CLEVELAND BURNETT

Stewart Arraigns Him  
Before the Senate.

CORBETT SAYS HE WILL FIGHT

France Sends Peremptory Orders  
to Siam.

A HALF MILLION DOLLAR FIRE.

A Russian Steamer Goes Down  
with Sixty Lives.

The President Arraigned.

WASHINGTON, Sept. 25.—The first thing in the senate today, after the routine morning business, was the consideration of Stewart's resolution offered Saturday to arraign the president for attempting to coerce congress into passing the silver repeal bill, thereby impairing the independence of the co-ordinate branch of the government, in violation of the constitution, and destructive to the government.

Stewart began by referring to the recent centennial anniversary of the laying of the corner stone of the capitol, when, he said, the president, with more than a hundred thousand high paid government officers to bestow, with the veto power designed only for extraordinary occasions, backed by the concentrated capital and "Venal Press," turning to the senate wing, declared in menacing tones, that if the representatives there assembled "legislated in passion or prejudice or on behalf of sectional or selfish interests, the time when the cornerstone was laid, or the circumstances surrounding it, were not worth commemorating." This sentiment, cheered by the thoughtless multitude, was construed by the venal press as a rebuke from the president to the guilty venal senate.

Stewart then quoted from the history of England as to the parliamentary struggle with the Stuarts. Coming to the present time, he charged that the president, in disregard of the oath of office, allowed the secretary of treasury to violate the act which made the purchase of four and a half million ounces of silver per month mandatory, by exercising unlawful discretion and purchasing a smaller amount. Was it not time to sound the alarm? If constitutional liberty was of any value all should stand up and say to the president "You have overstepped the mark. We cannot afford to have the laws of congress disregarded."

Stewart then read from the Cincinnati Times-Star an interview with the president, in which he said: "Repeal of the silver purchasing act could not be effected by this." "The people are with me and my policy, but I fear I shall not be able to command action from congress. It is useless to appeal to them now."

"The assumption of the president that he knew best, said Stewart, and that those who had studied the subject all their lives were wrong, is remarkable. Where and when did he have an opportunity to familiarize himself with the wants and needs of the American people, and with the science of money and economy?"

Where and when did he study it, and in what school? I believe, said Stewart, the president is the only president who has ever presided at the white house who did not possess a liberal education, either in some college or on a farm, where he communicated with nature and learned nature's laws. The three greatest presidents we ever had received that liberal education which nature affords. Coming in contact with people and taking wider views of the laws of man and nature than can be obtained in a law office or

in a sheriff's office, or in the office of a mayor, or any other contracted place where the great book of nature is closed.

He cited Washington, Jackson and Lincoln as great examples of great presidents, as a result of a liberal education. Unfortunately the present president denied both college education and that grand and better education that came from communion with the great producing classes of the country.

Stewart said the President had no explicit opinion either of the senate or house, as was shown by a recent letter in which he said he expected soon to have a "session of congress on his hands." Without concluding Stewart yielded to Cameron, of Pennsylvania, who spoke against the repeal bill.

Corbett Will Fight.

NEW YORK, Sept. 25.—James J. Corbett signed the formal articles of agreement at Ashbury Park this morning to fight Charles Mitchell before the Coney Island Athletic club some time in December. Mitchell has already signed the articles.

Siam Must Comply.

PARIS, Sept. 25.—The Gaulois newspaper announces that France has sent additional war ships to Siam to enforce immediate compliance with France's demands. No further diplomatic delays will be permitted.

A Heavy Fire.

ST. JOSEPH, Mo., Sept. 25.—A fire started in Townsend & Wyatt's dry goods store this morning and consumed a five story building of the Regnier & Shoupe Crockerie Co., the Commercial bank, and other small buildings. The loss will be near half a million. An unconfirmed report says three firemen were killed.

VICTORIA, Sept. 25.—A Northern Pacific steamer brings word of the burning of the Russian steamer Alphonse Sevecke, with a loss of sixty lives.

Balboa Honored.

CHICAGO, Ill., Sept. 25.—The three states bordering the Pacific coast, California, Washington and Oregon, joined today at the fair in the celebration of the anniversary of Balboa's discovery of the Pacific ocean. The new Liberty bell was rung, speeches were made and the memory of the great explorer was honored.

South American Rebels.

Buenos Ayres, Sept. 25.—Ex-President Pellegrini has arrived at Tucuman and telegraphs that he expects the rebels soon to surrender. Other advices have it that the foreign colonists of Santa Fe and the neighborhood are joining the rebellion, and that a bloody engagement between the rebels and the Government is expected hourly.

Failure in St. Paul.

ST. PAUL, Sept. 25.—The Merrill Company, one of the largest firms dealing in school books and stationery, assigned today. No statement is made but a heavy loss is expected.

HOPS AND CROPS.

Payallop Commerce: There is nothing new in hop circles. Picking in some of the smaller yards have been completed, and the grower is either filling a contract, or quietly waiting the market. E. Meeker and Co. have not commenced picking in their Payallop yards yet, and may not for another week. There is not enough of lice to cause any trouble, and in a few more days a good weather will add greatly to the value of the hops.

The following shipments have been made the past week: 34 bales to New York by John Lally; 56 bales to New York by Meeker and Co; and 125 bales to London by Meeker and Co.

Cleveland on Deportation.

WASHINGTON, D. C., Sept. 25.—The position occupied by the administration regarding the execution of the Geary exclusion law is definitely settled by a communication today sent to the house. The letter contains copies of instructions sent to collectors of customs by the treasury department under date of May 4. They are instructed to take no steps looking to the enforcement of the deportation act until further notice.

A copy is included of a telegram to Attorney General Olney dated September, instructing the district attorney at San Francisco, in view of the fact that no ground-exist for carrying out the law, to have such Chinese held liable to deportation to be discharged from custody until such provision is made.

You cannot do effective work without a clear head, and for this take Simmons Liver Regulator.

A TERRIBLE EXPLOSION.

A Sailor's Home in Frisco Blown to Atoms—The Nicaragua Canal.

SAN FRANCISCO, Sept. 25.—One of the most fiendish deeds in the criminal history of the city was perpetrated Saturday night. Soon after midnight a dynamite bomb was exploded in a water-front boarding house filled with non-union sailors, resulting in the instant death of three inmates and the probable fatal injury of seven more, while many sustained less serious injuries. The terrific explosion occurred in a house on Main street between Howard and Folson, kept by John Curtin. The house was filled with non-union sailors, and it was Curtin's custom to secure berths for his patrons on ships employing non union men. In this way he naturally incurred the enmity of the sailors' union. Less than a week ago his place was entered by a crowd of union men, led by a man named John Terrell. Curtin was threatened, and upon leaving his house, the men told him he had only a short time to live.

BLOWN UP IN THEIR SLEEP.

At night all the inmates had retired, as usual, and the house was quiet, when the explosion occurred, shaking the city for blocks. The entire front of the boarding house was torn away, carrying the front of the adjacent structure with it. The men were thrown from their beds across the street. A large hole was blown through the sidewalk into the basement, into which numbers of men were thrown. Main street was filled with debris, among which were the dead and dying. An ambulance was quickly on the scene, and taking three severely wounded, started for the hospital, but one of them died before it was reached. As the work of rescue progressed it was found that men had limbs torn from their bodies.

John Curtin and Charles Bernard, two of the victims of Saturday night's explosion, are still alive, though there is hardly a chance for Bernard's recovery.

Three men have been arrested for the crime. They are John Tyrrell, James Woods and Terrence Tracy. They were formerly members of the Coast Seamen's union, but were dropped some time ago for non-payment of dues. Tracy is a deep sea sailor, and has never belonged to the union. Chief of Police Crowley believes the Coast Seamen's union is responsible for the deed and this morning ordered the arrest of Secretary Furesteth of the union, and he was taken into custody. Furesteth denies all knowledge of the crime. Governor Markham has offered a reward of \$1000 for the arrest and conviction of the men responsible for the crime. Bernard and Curtin, the wounded men, were still alive at noon.

The Nicaragua Canal.

MANAGUA, Nicaragua, Sept. 25.—The government will be asked in congress regarding the condition of the canal and the precise condition of the company. Although work on the canal is within the letter of the contract, it is claimed that the spirit of the law has been violated. It is also claimed that the company has not given a sufficient guarantee. Inquiry will be made into the solvency of the company and its ability to carry out its contract within the time stipulated.

"No Ride, No Fare."

"No ride, no fare," is becoming a general cry in all cities. When street car systems become paralyzed and cannot carry their passengers to their destinations, they should return the fare.—Baltimore American.

The Development of the Girl.

When a girl of sweet 16 appears on the street, she has a cute, pert way of walking and tossing her head as though she owned the earth and was going to the middle of the next block to get it. After she is 18 the world she owns is about as far away as the World's fair is to most of us, and at 20 she gives up all hope of getting it at all. By the time she is 25, poor thing, she has a faint, vague suspicion that there is a great deal of insincerity in the world, and the thing for her to do is to get a position and do something useful. After while she gets married to a man who is not at all the sort of a man she dreamed of. Then she concludes she would be better off in heaven.—Wahpeton (N. D.) Globe.

Economize in Paper.

Clean newspapers, tied in bundles of 100, not cut, for sale at this office at fifteen cents a bundle. A heavy straw wrapping paper, large sheets, two cents a pound. Next door to the postoffice.

Highest of all in Leavening Power.—Latest U. S. Gov't Report.

ABSOLUTELY PURE

ANOTHER EASTERN OUTLET.

Survey Being Made to Connect the Oregon Pacific East.

The Oregonian says that a surveying party has just arrived at The Dalles after a seven-weeks trip through Eastern Oregon, their object being to find a feasible route for a railroad from that point through the interior to the line of the Oregon Pacific in Lake country. Just who is behind the project it is impossible at present to state, but officials of both the Northern Pacific and Union Pacific disclaim any connection with the enterprise. The surveyors followed the Lieutenant Norton survey from The Dalles to the Deschutes, which was found to be the most difficult part of the proposed road, but the average grade will not exceed fifty feet to the mile. Striking that river at the agency ferry, they followed up the stream to the mouth of Crooked river, a distance of twenty miles, the altitude of the former place being 1000 feet and of the latter 1125 feet, making an average of about seven feet to the mile. There would be no difficult work in following this stream, and the roadbed could be easily made. From this point they went to Prineville, in Crook county, 45 miles distant. The first 20 miles has no grade to exceed 50 feet, and from that distance to the town mentioned the land is comparatively level. After leaving Prineville they found the ground much more feasible for a railroad, the streams flowing over a level country, and only passing through canyons where they empty their waters into lakes or larger rivers. At the head of Silver creek, 125 miles from Prineville, they reached the surveyed route of the Oregon Pacific, and for the entire distance the grade would be very light. This creek spreads out and down it would be a natural roadbed.

The route, if adopted, will open a fine agricultural belt and the land, which is well watered and the soil is very fertile. There are settlements nearly the whole distance of this proposed road, and after a railroad is built to furnish an available market for produce, the region should contain 10 times the population it now does. The construction of the line of road, it is said, would not be expensive, and would not cost nearly so much as many now in operation.

C. H. Gest, attorney of the Oregon Pacific, in speaking of the affairs of the road, says that the main object of the sale ordered by Judge Fullerton is to determine the relative rights of the different creditors who will participate in any fund that may be cheated by the sale.

This was done so that all creditors, material, men and labor, might have all matters settled and adjudicated without waiting until after the fund is created, and then having it done at their own expense. These matters will be determined at the earliest possible moment, and then the court will order the sale of the road and the chances are that it will take place before December 1. Mr. Gest says that intermediate orders of all sorts are mixed, and Judge Fullerton wants to get one record of the company's affairs and everything in shape for the supreme court, should the case be appealed. The certificate indebtedness amounts to \$800,000, and there is an indebtedness of \$400,000 not represented by any particular acknowledged. The rank of this indebtedness will be determined by the court.

How's This!

We offer One Hundred Dollars reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure. F. J. CHENEY & Co., Toledo, O. We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by their firm.

THE MARKETS.

SAN FRANCISCO, Sept. 25.—Wheat, December \$1.02.

CHICAGO, Sept. 25.—Cash, 65¢; December 68¢.

PORTLAND, Sept. 25.—Wheat value, \$1.07; Walla Walla \$1.07.

Simmons Liver Regulator, bear in mind, is not an experiment. It is endorsed by thousands.

A FALSE CHARGE.

EDITOR JOURNAL: I am told by some neighbors here that the Independent at Salem reported the death of Henry Robens was caused by the hand of his brother John, in short that they quarreled and that John dealt his brother the fatal blow. It is well known that before Henry died he exonerated all persons whatever from responsibility for his fall, stating that it was wholly his own fault. It is too severe a charge to make in print that a man killed his own brother, especially when the reporter has no knowledge of the facts. Please correct this false charge, in justice to a respected young man, and greatly obliged.

For Better Meat.

NEW YORK, Sept. 25.—William Hosea Ballou, who for two years has been investigating the foreign steamship companies engaged in the transportation of livestock, has sent a report to President Cleveland in accordance with the desires of the previous administration. In the report Ballou suggests that arrangements be made for an international quarantine commission, to recommend new regulations to replace those which now require the cruel slaughter of our cattle abroad in quarantine; to agree upon the proper construction of vessels for animals in transit; to recommend international laws for the punishment of navigation companies, officers and employees for cruelty and to make them liable in damages to shippers for the destruction or injury to animals in transit, and to suggest ways and means by which the lives of some millions of dollars worth of animals now annually destroyed at sea may be saved.

Fighters Fined.

PORTLAND, Or., Sept. 25.—Frank Kelley, Dud Evans, Lees Cohn and Mark Shire, recently convicted of engaging in a prize fight, were fined one thousand dollars each today. The cases will be appealed to the supreme court.

"It is the mind that makes the man," said Watts, but modern ethics deny this, and give the credit to the tailor. It is questionable, however, if either are right.
